Subject: Fwd: Kilakila Haleakala from ClareApana

Mahalo to all who support the preservation of sacred Haleakala. She needs our assistance. See attached file for view of proposed Advanced Technology Solar Telescope (ATST) for the purpose of Scientific research and defense proposed for the summit of Haleakala. Sign petition www.kilakilahaleakala.org Download a petition www.kilakilahaleakala.org

This written record will be turned in as a response to the environmental impact statement process. It will also be sent to:

1. Director of the National Science Foundation (NSF) who will make the ultimate decision to fund or to deny funding for this project on Haleakala
2. Department of Land and Natural Resources (Laura Thielen) who must give approval to use the Historic Haleakala National Park including the narrow and potentially unsafe (for this project size) historic road to the summit
3. Superintendent of Haleakala National Park.
4. Other reviewing committee members

We have until June 22nd for the response to the Environmental Impact Statement and June 30, 2009 for cultural comments. This is an update of the 2005 petition.

Any signatures that are received after June 30th will continue to be submitted. We have a limited time to collect signatures. but with the effort of many we can make an impact.

An email to your contacts is so greatly appreciated.
